Trend of Trading Saturday.

Chicago, Aug. 29.—After an irregular opening, wheat yesterday took a small upward turn, then eased off. At the start there was covering by shorts for protection over the week end and this sent prices up slightly after an opening very between 3-8c lower to 1-4c higher. Weather conditions were good through nearly the entire northwest, cables were easy and September, which had advanced 3-8c to 3-4c after opening at 97 1-4c to 97 3-8c, receded

Boils and Pimples Dangerous

S. S. S. Your Remedy

Standard For Fifty Years

Modern science has proven that boils and carbuncles, pimples and unsightly skin blotches, are the danger signals of diseased blood. Scaly skin and itching of Eczema, Scrofula, rashes—all skin diseases are aggravated by bad blood—it's the infected blood that's dangerous. Don't wait for the boils. If you have pimples and blotches, take instant action. Pimples tell you that your blood is filled with impurities. You must wash out your blood, strengthen and stimulate it to healthy action with Nature's own blood tonic, S. S. S. It is the standard blood purifier of the world. Don't use any drugs, don't use ointments and salves. S. S. S. reaches the blood, drives out the impurities. It makes healthy perspiration—the poison is literally sweated out through the skin. Boils, blotches, Eczema and the Scrofula indications disappear. It does what salves and lotions can never do—it goes to the very root of the trouble by reaching the blood. Your skin becomes clear and you soon feel the vigor of the return of perfect health. S. S. S. is purely vegetable. You can get it at any drugist's, but you must take S. S. S. Let us tell you about blood diseases. Write for book of fact "What the Mirror Tells." If yours is a long standing case, write for expert advice to S. S. S. Co., Atlanta, Ga.

W. O. W. MEET.

By United Press.

Pensacola, Fla., Aug. 30.—The Woodmen of the World from Florida, Alabama and Georgia, including over ten thousand of the uniform rank are in annual encampment here.

WEATHER ELSEWHERE.

Western Union reports received at 8 a. m.:

Texas.
Partly cloudy, cool.
Oklahoma.
Generally clear, calm and cool.

MAP OUT SOUTHERN TOURS.

By United Press.

Jacksonville, Fla., Aug. 30.—Several local motorists will start this week to map out tours as far north as the Potomac and Ohio rivers, which will be published in the 1916 Blue Book. The idea is to stimulate travel between the north and south.

If you sit in a cold draft when you are heated and get a stiff neck or lame back, you will be looking for something that will ease the pain. Fix your mind on Ballard's Snow Liniment and don't be talked out of it because it is the best pain relieving liniment you can get anywhere. Price 25c, 50c and \$1.00 per bottle. Sold by Owl drug store.—Adv. d&w

Your Ideals and Visions.

No vision and no idea is worth a copper cent unless it is brought down to earth, patiently harnessed, painfully trained and set to work. There is a beautiful analogy that comes often to my mind. We conceive an idea, as a child is conceived, in a transport of joy; but after that there are long months of growth in the close dark warmth of the soul, to which every part of one's personality must contribute, and then there is the painful hour of travail when at last the idea is given to the world. It is a process that cannot be hurried nor borne without suffering. And the punishment of those who stop with the joy of conception, thinking they can skim the delight of life and avoid its pain, is the same in the intellectual and spiritual spheres as it is in the physical—barrenness, and finally a terrible sense of failure and of loneliness.—David Grayson in American Magazine.

WANTED—Clean cotton rags at the Daily Express office.

LIBRARY BULLETIN.

Hours. Open from 2 to 6 p. m. and from 7 to 9 p. m. Sundays, 3 to 5 p. m. Phone 1124. New fiction received at the library:

Earl—Captain of the School Team.
Curtiss—Story of Cotton.
Samuel—Story of Gold and Silver.
Bassett—Story of Lumber; Story of Wool.

The Ant's Nostalgia.

In a recent issue of the Journal of the Philadelphia Academy of Sciences, Miss A. M. Fields, author of several papers on the life and habits of ants, describes her investigations into the function of the antennae. In her earlier paper she sought to show that the function of the antennae is olfactory, and she now declares that the various segments perceive particular odors. The segment at the tip, for example, warns an ant that he is approaching a colony other than his own. Again, the next segment below perceives the odor that marks one ant colony as inimical to others of the same species. Another segment serves to guide the ant when homeward bound by enabling him to pick up the scent he left on the ground during his outward journey. Still another segment enables a worker ant to recognize the whereabouts of the queen and her undeveloped progeny. But in respect to the travels of the ant, our readers will remember the paper in the Companion in which the great French naturalist, Fabre, describes the experiments that led him to believe that the ant guides himself by sight alone.

What a Doctor Says.

Walking is the best exercise. Do some of it every day. Next to walking comes bowling. You can't throw a bowling ball without stooping clear to the floor, and every stoop stimulates the liver and exercises the intestines. Fifty per cent of the sickness in the world would be eliminated if everybody bowled. Walk or bowl every day. And at night lie flat on your back and raise your legs above your head, slowly, as many times as you can without fatigue. Then, anchoring your toes under a weight of some sort, raise and lower the body. These two exercises repeated fifteen or twenty times night and morning will do a lot for you. And you'll be surprised to find how quickly you develop endurance. Start with five times and increase each day or two until you reach twenty.—Woman's Home Companion.
